

Welcome to Carmel College

"Where Students leave with more than just outstanding exam results"

6.00-6.15 Welcome Talk

6.15-7.00 Workshops with staff on revision techniques

7.00-7.30 Presentation by PLM on exam expectations.

Each teacher will have a 10 minute slot within the classroom.

We understand you may not get to all subject so we will bring resources back in the JC hall for you to take before you leave.

Revision

Definition: studying something you have studied before.

Another way to think about it could be:

R- read (your notes)

E- explain (topics /themes)

V- visualise (being successful!)

I- identify (difficult areas)

S- simplify (all tasks)

I- investigate (things you don't understand)

O- organise (your time)

N- never give up!

Effective use of time

- 30-45 minute sessions
- Short 5-10 minute break between sessions

Location

- A quiet place, away from distractions
- Comfortable room, with good light

Tackling the hard stuff

- Don't avoid the hardest subjects
- Break subjects down into topics/themes
- Ask teachers to go over difficult areas
- Use revision guides to focus on specifics

About Samples Subscribe Reviews Help Contact

MyMaths teachers are confident.

Hundreds of ready made lessons and homework tasks help you to achieve fantastic results.

Welcome to MyMaths.co.uk

MyMaths is a subscription website for schools... across the world. Although we're based in the UK, MyMaths is used in about 70 countries and by around four million students a year. We've provided access to a range of ready-made lessons and Online Homework tasks for over ten years and we're proud that our resources have been proven to raise standards of achievement.

What a fantastic service you are offering. I am so pleased. My students and parents have taken to it really well.

Preparing for the big day

Encourage them to:

- Check personal exam timetable for dates and times of exams.
- Avoid staying up late trying to do last minute revision - it is more important to be fresh and able to concentrate during the exams.
- Be positive: visualise the exams going well so that they feel confident and relaxed during the exam.
- Eat something for breakfast- the brain needs energy to work too
- Arrive in plenty of time to avoid feel rushed- morning exams start promptly at 9am and afternoon exams at 1pm

What they need to bring to college for exams....

- Equipment- supply of black biros, pencils, rubber, pencil sharpener, ruler, protractor, compass, scientific calculator, coloured pencils.
- A clear pencil case/clear wallet/plastic bag to keep it all in.
- A bottle of still water is allowed, as long as it has had the label removed.

Essential information

- Individual timetable
- No study leave
- Exam clashes
- Illness
- Missing exams without medical evidence
- Electronic storage devices
- Hoodies
- Full uniform
- Leaving the exam room
- Difficulties during the exam
